- Facility employees who work in a secure area
- Truckers bringing/picking up cargo at a facility
- Agents
- Other maritime professionals
- Longshoreman
- Drayage truckers

● What are secure areas?

A secure area is defined as the area on board a vessel, at a facility or outer continental shelf facility over which the owner/operator has implemented security measures for access control in accordance with a Coast Guard approved security plan. It does not include passenger access areas, employee access areas, or public access areas.
